

MASTER REVERSE INDEX — PLANET → SYSTEM CORRELATIONS

Planet	Primary Bodily Domains	Major Modifiers (Pairs Influencing Expression)	Key Health Polarities
Sun	Heart, circulation, vitality, metabolism, life-force	Mercury (neural stimulation), Venus (hormonal heart link), Mars (inflammation), Saturn (restriction), Uranus (electrical rhythm), Neptune (fatigue), Pluto (regeneration)	Vitality ↔ Depletion • Growth ↔ Decay • Overheat ↔ Weakness
Moon	Bodily fluids, hormonal rhythm, reproduction (female), digestion, emotional regulation	Mercury (neural sensitivity), Venus (fertility), Mars (inflammation), Jupiter (nutrition), Saturn (stagnation), Uranus (stress shocks), Neptune (toxicity), Pluto (deep reproductive trauma)	Flow ↔ Stagnation • Nurture ↔ Depletion • Emotion ↔ Instinct
Mercury	Central and peripheral nerves, sensory and motor control, cognitive integration	Venus (hormonal feedback), Mars (inflammation), Jupiter (neural nutrition), Saturn (rigidity), Uranus (electric surges), Neptune (confusion), Pluto (regeneration)	Communication ↔ Blockage • Awareness ↔ Overstimulation • Logic ↔ Dissolution
Venus	Endocrine glands, kidneys, hormonal cycles, tissue softness, female chemistry	Mars (inflammation), Jupiter (metabolic expansion), Saturn (rigid glands), Uranus (irregular cycles), Neptune (weak secretion), Pluto (hormonal transformation)	Harmony ↔ Discord • Relaxation ↔ Retention • Fertility ↔ Suppression
Mars	Muscles, blood heat, adrenal energy, male reproductive drive, immunity	Jupiter (growth), Saturn (structure), Uranus (electric shocks), Neptune (infection/fatigue), Pluto (cellular intensity)	Action ↔ Exhaustion • Heat ↔ Weakness • Inflammation ↔ Healing
Jupiter	Liver, pancreas, digestion, assimilation, cell growth, optimism	Saturn (form), Uranus (nerve rhythm), Neptune (toxicity), Pluto (regeneration)	Expansion ↔ Congestion • Growth ↔ Retention • Overabundance ↔ Deficiency
Saturn	Bones, joints, connective tissue, elimination, chronic conditions	Uranus (spasms), Neptune (fatigue), Pluto (degeneration)	Endurance ↔ Decay • Rigidity ↔ Collapse • Time ↔ Renewal
Uranus	Neural excitation, bioelectrical control, attention shifts, cardiac conduction	Neptune (confusion), Pluto (mutation), Saturn (blockage), Mercury (signal speed)	Electricity ↔ Instability • Innovation ↔ Chaos • Regulation ↔ Shock
Neptune	Immune decline, lymphatic flow, toxicity, energy	Pluto (genetic repair), Uranus (nervous disarray), Venus (hormonal drift), Saturn (chronic exhaustion)	Dissolution ↔ Renewal • Sensitivity ↔ Collapse • Purification ↔ Poisoning

Planet	Primary Bodily Domains	Major Modifiers (Pairs Influencing Expression)	Key Health Polarities
Pluto	diffusion, psychic sensitivity Cell renewal, reproduction, DNA replication, deep psyche–body control	Neptune (hidden illness), Saturn (rigid decay), Mars (inflammation), Sun (vitality), Moon (conception)	Death ↔ Regeneration • Crisis ↔ Rebirth • Power ↔ Breakdown

MASTER PLANETARY HEALTH CROSS-REFERENCE

Body System / Function	Primary Planetary Correlates	Secondary or Modifying Influences	Notes / Patterns
Cardiac & Circulatory	Sun, Mars, Jupiter	Moon, Venus, Uranus, Saturn	Vitality core; pulse, blood pressure, heart rhythm; Saturn/Uranus tension → arrhythmia
Respiratory / Pulmonary	Sun, Uranus, Mars	Neptune, Mercury	Electrical heart–lung rhythm; Mars–Neptune = inflammation or bronchial weakness
Digestive / Hepatic	Jupiter, Moon	Venus, Mercury, Saturn	Nutrient assimilation; bile flow; Jupiter–Neptune → toxic retention
Endocrine / Hormonal	Venus, Moon	Sun, Saturn, Neptune	Hormone regulation; thyroid–kidney–gonadal axis; Neptune weakens secretion
Reproductive (Female)	Moon, Venus	Sun, Pluto, Mars, Uranus	Ovaries, menstrual cycles, fertility; Uranus or Pluto = irregularity or trauma
Reproductive (Male)	Mars, Sun	Pluto, Jupiter	Testicular and adrenal function; Sun–Mars = strength, Mars–Neptune = decline
Muscular System	Mars, Sun	Jupiter, Saturn, Neptune	Power and tone; Saturn = rigidity; Neptune = atrophy
Skeletal / Structural	Saturn	Mars, Jupiter, Pluto	Bone density and joints; Mars–Saturn = inflammation; Saturn–Pluto = deformity
Nervous System (Central)	Mercury, Uranus	Sun, Neptune, Pluto	Brain, spinal cord, signal conduction; Uranus–Neptune = bioelectric disturbance
Nervous System (Peripheral)	Mercury	Mars, Venus, Uranus	Sensory relay, movement control; Mars–Mercury = pain signaling
Bioelectrical / Regulatory	Uranus, Mercury	Sun, Saturn, Neptune	Neural rhythm and stress responses; Uranus–Saturn = blocked current
Lymphatic / Immune	Moon, Neptune	Mars, Venus, Pluto	Fluid filtration and defense; Neptune = depletion; Pluto = regeneration
Renal / Excretory	Venus, Saturn	Sun, Neptune, Pluto	Kidneys and waste filtration; Saturn = retention; Neptune = fluid imbalance

Body System / Function	Primary Planetary Correlates	Secondary or Modifying Influences	Notes / Patterns
Metabolic / Cellular Energy	Sun, Mars, Jupiter	Pluto, Saturn, Neptune	Metabolic rate and renewal; Pluto = overgrowth; Neptune = fatigue
Blood & Fluids	Moon, Sun, Mars	Neptune, Jupiter	Circulation, hydration, chemistry; Moon–Neptune = toxicity; Sun–Mars = heat
Immune / Infection Response	Mars, Neptune	Pluto, Moon, Venus	Mars = inflammation; Neptune = lowered defense; Pluto = crisis healing
Skin & Surface Tissue	Mars, Venus	Saturn, Neptune	Hormonal excretion and inflammation; Venus–Mars = acne, circulation issues
Sensory Organs	Mercury, Moon	Sun, Neptune, Uranus	Vision, hearing, perception; Neptune = distortion, Uranus = overstimulation
Psychological–Somatic Link	Moon, Mercury, Pluto	Neptune, Uranus, Venus	Emotional cause of physical states; Neptune–Pluto = deep psychosomatic transformation
Aging / Degeneration	Saturn, Neptune	Pluto, Sun	Cellular decay; mineral crystallization; Neptune = fatigue, Pluto = renewal trigger

SUN — Planetary Health Pairings

Planetary Pair	Core Interaction	Key Systems / Health Dynamics	Imbalance Tendency
Sun–Moon	Vitality meets flow	Heart and circulatory rhythm; reproductive fluids; eyes and visual integration; conscious–subconscious communication	Fluid accumulation around heart; emotional–physical tension; hormonal or reproductive stress
Sun–Mercury	Neural vitality	Brain and spinal pathways; cardiac nerves; endocrine stimulation; adolescent hormonal development	Mental overstimulation draining energy; nervous depletion; cognitive fatigue
Sun–Venus	Endocrine spark	Hormonal vitality; heart–kidney connection; female reproductive glands; ovarian cell development	Endocrine disruption; circulatory stagnation; diminished reproductive energy
Sun–Mars	Masculine vigor	Muscle tone; heart muscle; metabolic drive; male reproductive glands; adrenal activation	Inflammation, fever, or overheat; hypertension; tissue strain or exhaustion
Sun–Jupiter	Expansive growth	Heart strength; liver and digestive assimilation; cell development and healing; nutrient synthesis	Elevated fats or enzymes; metabolic excess; congestive or hypertrophic conditions
Sun–Saturn	Constrained vitality	Bone structure; skeletal support; heart and circulation; metabolic aging; mineralization	Circulatory blockages; restricted vitality; joint inflammation; age-related deterioration

Planetary Pair	Core Interaction	Key Systems / Health Dynamics	Imbalance Tendency
Sun–Uranus	Rhythmic pulse	Cardiac and respiratory coordination; bioelectrical conduction; neural timing and regulation	Arrhythmia; sudden circulatory shocks; autonomic instability; nervous excitability
Sun–Neptune	Fading energy	Muscular integrity; cardiac tone; blood chemistry; tissue recovery and immune processes	Fluid retention (edema); muscle atrophy; anemia; general fatigue or immune weakness
Sun–Pluto	Extreme vitality	Cell regeneration and transformation; reproductive potency; deep psychological–physical interface	Uncontrolled cell growth (cancer risk); vitality surges and collapses; gender misalignment or crisis states

MOON — Planetary Health Pairings

Planetary Pair	Core Interaction	Key Systems / Health Dynamics	Imbalance Tendency
Moon–Mercury	Fluid thought	Brain fluids and cerebrospinal flow; neural sensitivity; hypothalamic regulation; female puberty transitions	Anxiety, neural hypersensitivity, hormonal instability, insomnia
Moon–Venus	Feminine balance	Endocrine–reproductive coordination; menstrual cycles; hormonal secretion; emotional–limbic integration	Menstrual irregularity, glandular dysfunction, emotional-hormonal imbalance
Moon–Mars	Fiery fluids	Blood temperature regulation; immune reactivity; tissue expansion and irritation; thyroid stimulation	Fever, hemorrhage, inflammation, dehydration, autoimmune flare
Moon–Jupiter	Nourished flow	Digestive absorption; enzyme secretion; reproductive nourishment; subconscious healing processes	Overeating, bloating, metabolic sluggishness, digestive water retention
Moon–Saturn	Stagnant rhythm	Elimination and waste control; reproductive endurance; mineral metabolism; inherited structural patterns	Constipation, infertility, sluggish elimination, hereditary disease tendency
Moon–Uranus	Tension surge	Autonomic nervous response; menstrual rhythm control; electrical signaling in stress	Nervous shocks, erratic menstrual cycles, tension-related disorientation
Moon–Neptune	Murky waters	Circulatory fluids; lymphatic purification; subconscious impact on immunity	Edema, blood impurities, mood-linked fatigue, psychosomatic confusion
Moon–Pluto	Deep tides	Fertility and conception; hormonal transformation; emotional–cellular connection; trauma imprinting	Reproductive loss, intense emotional upheaval, rare or extreme physical conditions

Functional Notes

- **Core Principle:** The Moon governs fluids, rhythms, and subconscious biological processes; each pairing shows how those tides interact with another planet's force.
- **Diagnostic Use:** Moon combinations are highly psychosomatic — they often manifest through *emotionally mediated physiological changes*.
- **Observation Tip:** Look for timing fluctuations — lunar-linked imbalances often appear cyclically or hormonally.

MERCURY — Planetary Health Pairings

Planetary Pair	Core Interaction	Key Systems / Health Dynamics	Imbalance Tendency
Mercury–Venus	Calm circuitry	Hypothalamic and limbic balance; hormone–nerve feedback loops; emotional relaxation responses	Developmental delay, chemical imbalance, emotional–endocrine discord
Mercury–Mars	Wired heat	Motor neuron excitation; pain signaling; muscular innervation; sensory–adrenal feedback	Neural inflammation, chronic pain, irritation, sensory overload
Mercury–Jupiter	Neural digestion	Gut–brain axis; nutrient transport to neurons; mental optimism aiding recovery	Poor neural nutrition, digestive brain fog, impaired nerve regeneration
Mercury–Saturn	Blocked circuits	Central and peripheral nerve restriction; spinal rigidity; neurotransmission slowdown	Depression, stiffness, paralysis risk, cognitive constriction
Mercury–Uranus	Electric mind	Rapid neural signaling; brainwave acceleration; spinal–cerebellar coordination	Spasms, migraines, disorganization, erratic focus
Mercury–Neptune	Frayed perception	Sensory processing weakness; perceptual filtering; neural dissolution	Distorted perception, weakness, psychiatric vulnerability
Mercury–Pluto	Regenerative cognition	Deep nerve restructuring; cerebral plasticity; transformative mental states	Burnout, obsessive thought, neural exhaustion, regenerative crisis

Functional Notes

- **Core Principle:** Mercury governs the *neural network* — both electrical and chemical.
- **Correlative Rule:** Its pairings show how *mental activity translates into physiological tension or healing*.
- **Clinical Clue:** Mercury's imbalance tends to alternate between **hyperactivity** (spasm, overstimulation) and **collapse** (fatigue, signal failure).

VENUS — Planetary Health Pairings

Planetary Pair	Core Interaction	Key Systems / Health Dynamics	Imbalance Tendency
Venus–Mars	Passionate drive	Sexual organs; adrenal and immune glands; vascular circulation; hormonal inflammatory response	Hormonal conflict, immune stress, infections, circulatory strain
Venus–Jupiter	Balanced abundance	Pancreatic secretion; digestive–hormonal integration; female reproductive health; metabolic harmony	Overindulgence, liver burden, heavy metal accumulation, glandular excess
Venus–Saturn	Glandular discipline	Thyroid and kidney function; mineral metabolism; glucose regulation; reproductive structure	Hormonal resistance, fatigue, constipation, cardiac or thyroid dysfunction
Venus–Uranus	Erratic equilibrium	Reproductive cycle timing; nervous–endocrine interface; hormonal rhythm stability	Menstrual irregularity, abrupt endocrine shifts, stress-triggered imbalance
Venus–Neptune	Subtle chemistry	Pineal and thyroid activity; tissue fluid exchange; psycho-hormonal sensitivity	Hormonal weakness, fluid retention, kidney or thyroid anomalies
Venus–Pluto	Hormonal transformation	Puberty and menopause thresholds; glandular transitions; reproductive cell renewal	Traumatic hormonal changes, fertility crisis, glandular disease, emotional exhaustion

Functional Notes

- **Core Principle:** Venus stabilizes the *internal chemistry of well-being* — endocrine, metabolic, and emotional.
- **Physiological Role:** It modulates *parasympathetic recovery*, tissue softness, and biochemical receptivity.
- **Observation Tip:** Venus-linked imbalances often appear in *hormone feedback loops* (thyroid, adrenal, ovarian), and are best read through rhythmic or cyclical timing in transits or progressions.

MARS — Planetary Health Pairings

Planetary Pair	Core Interaction	Key Systems / Health Dynamics	Imbalance Tendency
Mars–Jupiter	Robust strength	Muscular system; liver and digestive vitality; male reproductive potency; physical drive	Inflammation of stomach or intestines, ulcers, overheating, digestive irritation
Mars–Saturn	Rigid endurance	Muscle–bone interface; joint integrity; bone marrow and cell regeneration; structural resilience	Arthritis, fractures, tissue necrosis, chronic rigidity or wasting

Planetary Pair	Core Interaction	Key Systems / Health Dynamics	Imbalance Tendency
Mars–Uranus	Sudden surge	Heart muscle excitation; adrenal shock response; reproductive contractions; electrical nerve discharge	Accidents, spasms, hemorrhage, cardiac event, adrenal exhaustion
Mars–Neptune	Waning fire	Muscle tone and coordination; immune defense; respiratory sensitivity; toxin response	Infection susceptibility, muscle weakness, allergic reaction, chronic fatigue
Mars–Pluto	Intense metabolism	Cellular combustion; inflammatory repair cycles; deep regenerative healing; energy transmutation	Overuse injury, inflammatory disease, cancer potential, crisis-induced healing

Functional Notes

- **Core Principle:** Mars is the *body's ignition system* — it fuels metabolism, drives circulation, and mobilizes immune force.
- **Correlative Rule:** Every Mars combination shows how *heat, energy, and drive* are channeled or blocked by another planetary influence.
- **Observation Tip:** Mars-linked health issues often manifest **acutely** (rapid onset) and respond to *movement, detoxification, or moderated exertion*.

JUPITER — Planetary Health Pairings

Planetary Pair	Core Interaction	Key Systems / Health Dynamics	Imbalance Tendency
Jupiter–Saturn	Form and function	Digestive–eliminative balance; liver and gallbladder coordination; skeletal integrity; long-term healing cycles	Liver congestion, joint stiffness, sluggish metabolism, slow recovery
Jupiter–Uranus	Rhythmic metabolism	Nerve–digestive interface; peristaltic rhythm; absorption efficiency; adaptive healing mechanisms	Erratic digestion, nutrient malabsorption, nervous stomach, tech-related overstimulation
Jupiter–Neptune	Slackened core	Liver and pancreas health; fluid distribution; cellular nourishment; stomach–lymph relationship	Fluid retention, metabolic depression, toxicity, misdiagnosis or unclear symptoms
Jupiter–Pluto	Regenerative growth	Cellular proliferation; deep tissue recovery; digestive resilience; transformative healing	Overgrowth (benign or malignant), strong regeneration, rare recovery phenomena

Functional Notes

- **Core Principle:** Jupiter governs *assimilation and cellular construction* — how nourishment becomes structure.

- **Health Axis:** Digestive, hepatic, and metabolic functions mirror Jupiter’s expansion principle; its pairings show where *growth supports or exceeds limits*.
- **Observation Tip:** When Jupiter is overstimulated or constrained, the result is often **metabolic congestion** (too much buildup) or **insufficient assimilation** (nutritional depletion).

SATURN — Planetary Health Pairings

Planetary Pair	Core Interaction	Key Systems / Health Dynamics	Imbalance Tendency
Saturn–Uranus	Suppressed rhythm	Circulatory regulation; electrical conduction in heart and muscles; bone–nerve interface; stress endurance	Muscle cramping, spasms, circulatory blockage, restricted breathing, attention instability
Saturn–Neptune	Chronic fade	Skeletal density; pain endurance; immune resilience; emotional fatigue response	Bone loss, paralysis, chronic illness, depressive exhaustion
Saturn–Pluto	Rigid transformation	Bone structure and elimination organs; regenerative repair cycles; mineral retention and excretion	Structural deformities, mineral buildup, fixation or obsession, degenerative rigidity

Functional Notes

- **Core Principle:** Saturn governs *the body's framework and resistance curve* — it reveals how matter solidifies and how the organism manages decline.
- **Correlative Rule:** Saturn pairings show where *tension between endurance and decay* appears in the body.
- **Observation Tip:** Chronic and time-related disorders—especially those involving bones, joints, or slow metabolism—often trace to Saturnine interactions or progressions.

URANUS — Planetary Health Pairings

Planetary Pair	Core Interaction	Key Systems / Health Dynamics	Imbalance Tendency
Uranus–Neptune	Electrical confusion	Autonomic nervous system; consciousness modulation; cardiac rhythm; stress response	Heart failure or collapse, nervous agitation, disrupted sleep–wake cycles, altered awareness
Uranus–Pluto	Electric mutation	Neural conduction; bioelectrical–genetic interface; DNA signaling and repair mechanisms	Nervous breakdowns, seizure patterns, spontaneous mutation or rare disorders, genetic instability

Functional Notes

- **Core Principle:** Uranus governs *bioelectric rhythm and adaptive nerve signaling* — it links physical nerve current with mental alertness and sudden physiological change.
- **Correlative Rule:** Uranus pairings mark **threshold states** — where normal homeostasis is disrupted or recalibrated.
- **Observation Tip:** Watch for *spontaneous events* (crises, shocks, breakthroughs) rather than slow processes; Uranus acts abruptly, often triggering symptoms that appear and vanish unpredictably.

NEPTUNE — Planetary Health Pairings

Planetary Pair	Core Interaction	Key Systems / Health Dynamics	Imbalance Tendency
Neptune– Pluto	Hidden transformation	Genetic and cellular memory; immune and lymphatic regeneration; unseen or mysterious systemic processes	Elusive or undiagnosable illness, genetic manipulation or repair, deep regenerative crisis

Functional Notes

- **Core Principle:** Neptune dissolves boundaries — chemically, emotionally, and energetically. It governs *diffusion, absorption, and subtle depletion or renewal*.
- **Correlative Rule:** Neptune pairings reveal *conditions that blur physical and psychological borders* — fatigue syndromes, toxins, infections, psychosomatic effects.
- **Observation Tip:** Illnesses under Neptune influence tend to have **vague onset** and **fluid or reversible symptoms**; they often respond to purification, rest, or psychic rebalancing rather than direct physical intervention.
